

## **PREFER clinical case studies workshop**

Day 1 consists of open workshop presenting PREFER to a wider audience, including two keynote presentations.

Day 2 is a PREFER consortium working meeting, mixing elements of plenary discussions and breakout sessions to plan for case studies.

After lunch of day 2, the Steering Committee meets to discuss specific actions.

Aim of workshop:

- To get common understanding on and agreement with the steps / decisions taken so far
- To agree on the prioritization of methodological questions and associated methods that will be studied in case studies
- To match methodological questions to case studies
- To agree on design choices for specific case studies
